Target Issue Report
Historical Issue Pool
1. Similar-Issue Trajectory Collection
• Apply repair pipeline to similar issues
• Record execution traces
Repair pipeline
Raw Trajectories
2. Trajectory Distillation
• Distill traces into multi-level abstractions
• Summarize granularities
Multi-level Abstraction Structure
3. Cross-Issue Retrieval & Plan Generation
• Retrieve relevant abstract nodes
• Generate stage-specific guidance
[Decoder Plan]
[Solution Plan]
[Solver Plan]
4. Guided Repair on Target Issue
Guidance: Decoder Plan
Guidance: Solution Plan
Guidance: Solver Plan
